

**One Year after Fukushima and on 26th
Anniversary of Chernobyl**

What Future for Nuclear Power?

**Friends Meeting House, Mount St,
Manchester**

7.30pm Thursday 26th April

A Public Meeting Chaired by Cllr Mark Hackett

Speakers:

Dr Paul Dorfman

Founder Co-ordinator, Nuclear Consulting Group

Anna Gorchakova

Director, Belarusian Children's Hospice

Mike Koefman

Founder, Planet Hydrogen

Organised by [Greater Manchester CND](#); [SERA](#);
[Chernobyl Children's Project\(UK\)](#); [Nuclear Free Local Authorities](#)

As Germany and Italy reject Nuclear Power and Japan and France move to reduce their reliance on this hazardous technology, it seems that no lessons have been learned by the British Government.

There have been no changes to the plan to press ahead with at least 8 new nuclear powers stations in the UK.

Dr Paul Dorfman

Senior Researcher at Warwick University, will speak on 'Late Lessons from Chernobyl; Early Warnings from Fukushima'

Anna Gorchakova

Founder of the first Children's Hospice in Eastern Europe, will speak about the ongoing effects on the health of children in Belarus today

Mike Koefman

Secretary of the Campaign for a Hydrogen Economy, will explore the renewable alternatives to nuclear power

Don't miss the chance to hear these expert speakers

You can get involved in the campaign to stop new nuclear power in the UK through:
